Problem Statement

Date	17 September 2022
Team ID	PNT2022TMID18532
Project Name	Estimation of Crop Yield using Data Analytics
Team Leader	Ruffina Perlantina
Team Member 1	Shwetha S
Team Member 2	Venkatakrishna
Team Member 3	Sumesh

1. Farmers have insufficient knowledge about historic data.
2. Limited experience in crop yield.
3. Poor revenue.
4. Crop yield failure due to improper decision-making.
5. High production and cultivation costs.
6. Clouded judgment based on weather forecasting, and other superficial factors.
